Assistant Principal

18 September 2020

From the Principal:

Parents and Students,

Today you are receiving your First Nine Weeks Progress Report. The Progress Report comes from your student's completed graded assignments in INOW. The teachers have graded all work and placed grades in the INOW gradebook system. Teachers and students are learning how to navigate Schoology; create assignments, complete assignments, and grade assignments. Some students have incomplete or not attempted assignments and we would like students to have the opportunity to make up their work. The teachers have been instructed to enter a zero for assignments that are incomplete or missing until the student completes the assignment. Teachers will be continuing to help students' complete assignments and improve their grades and approach mastery of core objectives. We are aware of some technical issues and are working to find solutions. Progress Report grades are NOT the students' final average.

Students will start a traditional seven period day rotating class schedule on Monday, September 21st, 2020. We will continue safety strategies implemented at the beginning of the school year to help ensure the safest learning environment for the students, teachers, and staff at Brookwood Middle School.

Sincerely,

Kristopher Strickland, EdS.
Principal
Brookwood Middle School
