

Huntington Place Elementary
Northport, AL

Dear Huntington Place Family and Friends,

We hope that everyone had a wonderful Spring Break and enjoyed spending time with your children. As you all know, due to the unfortunate circumstances we are facing, all schools will be out until April 6th. We have all worked very hard since August to help our students learn, grow, and achieve. We are extremely disappointed that our students will not be returning to our building this week. When we return, we are committed to spending every second of the school day making up for the instruction that will be missed. We will continue to seek guidance from our local and State leaders during this time. For now, you can use the resources listed below and those that are posted on our school website to use over the next two weeks. Your child should know their username and passwords for the websites we use at school, but if they do not know their password there are many free websites being provided to students at this time. It is important that our families spend some time each day focusing on academic activities during this time off. It is always a good practice for students to spend 20 minutes a day reading and practicing math facts. We understand that this is a difficult time for everyone as we are learning to manage this new situation. We do not want to put any extra strain on our families during this difficult time. Please understand that we do not expect everyone to spend hours on school work every day but we do want our students doing something school related each day. If myself, Mrs. Jones, or any of our staff can be of assistance during this time please do not hesitate to reach out to us through email. It is our hope that you all stay healthy during this time and that we can get back to our normal schedule soon! We cannot wait to see our students and our HPES family!

Math

- **IXL** - <https://www.ixl.com/signin/tuscaloosa>
- **Reflex** - https://accounts.explorellearning.com/reflex/student?_ga=2.196840554.778163126.1572968676-723763736.1572968676 This is great practice for multiplication fluency.
- **Prodigy** - <https://play.prodigygame.com/>

Reading

- Wonders online access: <https://my.mheducation.com/login> This is access to an online copy of our workbooks if you want to download extra practice pages.
- **Alabama Virtual Library**: <https://www.avl.lib.al.us/resources/elementary-school> This link has a lot of great nonfiction sources if your child wants to do a research project or read up on our science and social studies topics.
- **typing.com** - This is a fun game-based way to practice typing skills.
