

# Join the Facial Affect Sensitivity Training (FAST) Study for Young Children (6-11 years old)

Receive up to \$300 for participation

**Parents, does your child have difficulties with any of the following:**

- **Showing little or no concern for others**
- **Seeming unconcerned about how they do at school**
- **Not feeling bad when they do something wrong**
- **Not responding to punishment**

This experimental research study by the Center for Youth Development & Intervention at the University of Alabama evaluates a novel intervention that uses a new computerized treatment to help children **between 6 and 11 years of age** with these difficulties. We pay as you go and parents will earn a total of \$300 for completing the entire study. Your child will earn a number of small toys and up to \$40 cash for participating.

You and your child will come to our clinic for five weeks plus a one-month follow-up visit. This includes three assessment sessions and up to 10 training sessions. Participation includes questionnaires and computer tasks.

UA IRB Approved Document  
Approval date: 6/9/2021  
Expiration date: 12/16/2021
