Character education is a learning process that enables students and adults in a school community to understand, care about and act on core ethical values such as respect, justice, civic virtue and citizenship, and responsibility for self and others.

Good character education can **provide ground rules for life for adults and young people**, and it stresses the importance of helping children learn and practice behaviors that reflect universal ethical values. Character education helps children and youth become: Conscious of the right thing to do.

At Brookwood Middle School, we focus on Building and Modeling Successs and have a creed we live by:  
Participation, Responsibility, Integrity, Dedication, and Effort are five key elements that help me be successful. It is up to me to participate appropriately, to be responsible for my words and actions, to do the right thing, to be dedicated to my opportunities, and to put forth the effort needed to be successful.
